

Hospital Wing Ready For Furniture Installing

Friends Respond In Greenway Rites

Reflecting the true spirit of West Texas, a beautiful tribute was paid to the late Elva Greenway, Hamlin florist, when the neighboring florists over a wide West Texas area gathered in Miss Greenway's Hamlin Flower Shop Thursday morning to take over floral arrangements for her funeral that afternoon.

Members of the Greenway family had requested that Mrs. R. S. Ragsdale, Rotan florist, be in charge. By telephone, Mrs. Ragsdale enlisted the aid of other West Texas florists, and most of them were already in Hamlin when she arrived there early Thursday morning. Leading florists of the area worked early and late, completing 175 floral pieces by the 4:00 o'clock funeral hour.

"The floral pieces made up by attending florists Thursday were outstanding in design and workmanship," Mrs. Ragsdale said. "Teamwork and congeniality were unsurpassed," she added.

Miss Greenway, local florist since 1941, died at 2:15 p. m. Wednesday in an Abilene Hospital following an automobile crash south of Hamlin on the Anson highway a week previously. By coincidence on the day of the funeral, the other employee of her shop, Mrs. R. L. Kite, was attending the funeral of her brother, G. F. Lenard, injured fatally in a highway crash at Jal, New Mexico.

Mrs. D. C. Rogers of Rotan, a former Hamlin resident, and part time employee of both the Hamlin Flower Shop and the Ragsdale Flower Shop in Rotan, assisted Thursday. Others from the Rotan shop who assisted were Mrs. Jim Rowland, Mrs. Jess Phillips and Mrs. L. E. Newton.

Other florists who volunteered for service in the emergency were Mr. and Mrs. Peck Springer from Aspermont, Blue Womack, Anson, James High, Stamford; Carl Ferrell, Abilene and Charlie Connor, Haskell.

Preference of Miss Greenway for yellow and white color combinations in floral arrangement was recognized by the group and these colors predominated in the vast array of flowers.

Tentative plans are for Mrs. Carl Greenway to continue the operation of the Hamlin Flower Shop.

Mr. and Mrs. Claude Lancaster and daughters, Bille Kathryn and Lana Claude, were week end visitors to Fayetteville, Texas, where they attended a reunion of the Holamieck family.

Whaley Wells Both Completed Last Week

Both Wilson & Wilson and the Grisham and Hunter Whaley wells were completed as producers from the Swastika sand over the week-end.

Depth of pay is said to have been 3146 feet which is slightly lower than the discovery well on the Whaley property.

Cardinals Form For Late Season

A shot in the arm was injected into Hamlin's Cardinals baseball club over the week-end when a plan was worked out by Earnest Jenkins for continuation of hard ball play by the local aggregation.

Teams throughout the territory have been governed by the same lack of time that confronted the Cardinals and booking of games became increasingly difficult.

Passing of the harvest season has provided more time for the sport and a number of clubs have indicated a willingness to book games with the local nine.

First workout under the direction of Jenkins was staged Wednesday and a good turnout was on hand for the tryouts. Jenkins informed Herald representatives that he plans to book out of town contests until his club is formed to his satisfaction before showing before local fans.

Rotan, Rule, Haskell and Stamford are also indicating a renewed interest in the sport and indications are that a regular league schedule can be worked out.

A number of new performers are employed in Hamlin now and the club will be built around tried and true performers of other years here.

Schedule for Week In Softball Stretch Drive

Schedule for the week of play in the Hamlin city softball league have been announced.

Friday, July 7, will find the teams engaged in a catch up series that will pit Neinda against Hitson in the opener and VFW against Conoco in the afterpiece.

Monday, July 10, Neinda again engages Hamlin Lions and Hitson closes out the evening with Sylvester as opposition.

Tuesday will furnish an exhibition between Hitson Girls and Anson girls as the curtain raiser and Neinda will oppose McCauley to ring down the curtain.

July 13 will find Hitson meeting Conoco and Sylvester engaging Lions.

Mr. and Mrs. John Howard Jr. are on a vacation trip in South Carolina points.

The new west wing of the Hamlin Memorial Hospital has been completed from a construction standpoint and present plans of the hospital board call for the wing to be ready for occupancy between July 20 and August first.

Reports indicate that the new wing was erected at an approximate cost of \$21,000. Estimates submitted indicate that cost of furnishing the new wing will total approximately \$8,000. Board members are accepting endowments from citizens of the county to individually furnish the new section.

When the new structure is accepted as a completed unit of the hospital, capacity of the institution will be 32 beds in 11 rooms which have been combined into four wards.

The new structure is similar in design to the original structure and furniture selected for the west wing will be modern in every respect. Heating of the unit will be by a central system that will be thermostatically controlled.

Furniture has already been purchased and is scheduled for delivery about July 20. Details of the financing of this purchase will be reported on at a later date.

Remarkable feature of the new addition to hospital facilities in Hamlin is the fact that only a few years ago the project was believed to be hopelessly involved in financial entanglements. These difficulties have been eliminated and the hospital is solvent in every respect.

Board of directorsh and management of the hospital have announced that a complete accounting of the expenditures incidental to the new construction will be made in a forthcoming issue of The Herald.

VFW Falls Before Neinda In Upset

Hamlin had a short program in softball play during the past week when play was suspended over the Fourth of July holidays.

Thursday, June 29, found Hitson trouncing McCauley by a score of 7 to 5 and Neinda came through with an upset win over VFW, 12 to 4.

Hill was strong on the mound for Hitson and Pokey Woods was unable to carry the load of a short lineup in the VFW game with Neinda. At the start of the game only seven members of the VFW club were on hand. Reinforcements in the form of S. C. Ferguson arrived after the start of the game and VFW finished with two outfielders in the field.

Friday night brought an exhibition game between Hitson and the Sunlight bakery club from Abilene with the pitching of Dub Lockhart for the Abilene club being too much for the Hitson boys to overcome.

In the final for the evening Conoco spanked Neinda by an 8 to 2 score in a make-up game for one that had previously been postponed.

Recap of play through Friday night brought little change in the standings of the clubs. Standings with games won and lost are listed below:

	W	L	Pct.
VFW	6	2	.750
Lions	5	3	.625
Hitson	4	3	.572
Conoco	4	4	.500
Sylvester	3	4	.429
Neinda	3	5	.375
McCauley	2	6	.250

Figures reflecting the standings of the ten leading hitters in the league were not available for compilation.

George Howard, Mr. and Mrs. Sox Hudson, Miss Pearl Hudson, Mr. and Mrs. Musselwhite and Bob Riddel fished in a ranch tank north of Rotan over the Fourth.

UNICEF Goes to School in the Tyrol

A nun delegates a young "waiter" to help her serve bowls of soup—an extra on the schoolchildren's menu, in Mayrhofen, Austria—made possible by help from the United Nations International Children's Emergency Fund (UNICEF). The children are served their extra lunch each day at an inn operated by the mayor of the village.

Geo. F. Lenard Dies In Auto Accident

George F. Lenard, 39, formerly of Hamlin, now of Jal, New Mexico was fatally injured in a car accident last Wednesday.

He was a rancher and part time oil field employee. He was driving to work when he approached a car parked on the pavement, he swerved to miss the parked car and overturned his own car.

He is survived by his wife, six children all of Jal, New Mexico, his mother, Mrs. M. D. Lenard of Hamlin; three sisters, Mrs. Dovie Harison of Wichita Falls, Mrs. R. L. Kite of Hamlin, Mrs. C. F. Guinn of Ventura, California.

Due to illness, Mrs. Kite was the only one who could attend the funeral.

Sohio Stakes Location for Another Whaley

Sohio Oil Company has staked location and moved in rig for the drilling of their Number 2 J. C. Whaley about seven miles east of Hamlin.

The well will be a southwest offset to the discovery well drilled by Sohio.

TO UVALDE SECTION
Mr. and Mrs. J. B. Terrell, Jr., and son, Bryan, were accompanied by Mr. and Mrs. Robert Fowler on a week-end visit in Barksdale, Texas.

Terrell has purchased a small acreage site on the banks of the Nueces river in that sector of South Texas.

Bond Drive Reaches 81 Per Cent of Quota

According to a report received by The Herald this week Jones County had attained 81.24 per cent of its quota of \$77,500 on the Independence Savings Bond Drive over the state.

Report was received from the Treasury Department at Dallas and the final weekly increase will be carried next week.

Total for the county was \$62,964.50.

Foursquare Gospel Revival Continues

Old Fashion Revival at the Hamlin Foursquare Gospel Church is continuing this week, according to a report made to a Herald reporter.

Evangelist Judy Chavez is giving the messages and "Hell With The Lid Off" will be the sermon Sunday at 8:00 p. m.

A district rally will be conducted Monday at 3:00 p. m. by Rev. John Hall and at 7:30 p. m. by Evangelist Judy Chavez.

Rotary Members Self Introduced

C. G. Green conducted the program at the Wednesday noon meeting of the Hamlin Rotary Club at Johnson's Drive-Inn.

Each was introduced by Green, secretary of the club, and several questions were asked each member, which gave everyone plenty of laughs.

Visiting Rotarians were: Robbie Robison, D. L. Holly, Jack L. Minter, Jerral C. Wilson all of Abilene and two guests, Jimmy Wayne Sr., soil conservationist of Jal, New Mexico and Rev. Jimmy Wayne Jr., pastor at McCauley, who led the club in prayer.

Schedule of Games Released for Pipers In Gridiron Race

Hamlin's Pied Piper Football Schedule was announced this week for 1956 as follows:

September 8—Stamford at Stamford.
September 15—Haskell at Hamlin.

September 22—Anson at Hamlin.
September 29—Spur at Spur.
October 6—Open.

October 13—Roby at Roby.
October 20—Roscoe at Hamlin.
October 27—Merkel at Merkel.
November 3—Snyder at Snyder.
November 10—Colorado City at Hamlin.

November 17—Rotan at Hamlin.

Lions Defer Tuesday Meeting for Holiday

Fourth of July festivities forced cancellation of the regular Tuesday luncheon meeting of the Hamlin Lions Club.

Regular schedule of meetings will be resumed on Tuesday, July 11.

BRYANT RANCH WELL DRILLS

Latest reports from the Bryant Ranch well being dug by Moutray & Moore is that the depth is below 1500 feet.

The well is being drilled about five miles north of Hamlin on the Aspermont highway and borders on this highway.

MONTERREY VISITORS

Mr. and Mrs. Charles Gardner, Mr. and Mrs. A. J. French, Jr., Mr. and Mrs. Pat Marlow and Mr. and Mrs. Harold Wheat of Abilene were week-end visitors to Monterrey, Mexico.

The party returned to Hamlin Wednesday night.

Stadium Enlargement Leads to Option Sales

Fingerlings Fill Old And Lower Lakes

A total of 3,000 bass fingerlings were put into the Hamlin Old Lake and Lower Lake Friday afternoon under the watchful eyes of the Abilene District Game Warden and the superintendent of Game, Fish & Oyster Commission fish hatchery at San Angelo.

The 3,000 were equally distributed into both lakes with an average of 8 fish per acre.

J. D. Jones, Game Warden of Abilene District and W. H. Henderson, superintendent of the Texas Game, Fish & Oyster Commission fish hatchery at San Angelo supervised the operations.

With reference to more fish for the lakes both said Hamlin was due full delivery on bass and crappie.

According to F. E. Cauble, lake-keeper all ditches toward the lake have been cleaned out and they are now working on clearing the moss out.

Water School Here Is A. & M. Sponsor Act

C. A. Sanders of the A. & M. Extension Service who has been conducting a water school here for those interested closed with movies at the High School Auditorium Wednesday at 7:30 p. m.

The school was announced by Mac Brundage, mayor and was held by the City of Hamlin and State Board of Health.

Attendees of the school received a license on water upon completion of the three weeks course.

Pupil Transfer Set For July Action

Everett Beaver, Jones County Superintendent this week announced that all people who send to a district other than the one in which they reside should call at the office with the month of July to investigate a need for transfer.

"If there is found that there is a need for transfer," he said, "the application must be made and filed with the county superintendent on or before the 1st of August."

ON VISIT TO COAST

Mrs. George Howard, Mrs. H. Fields, Mrs. Fed Britton, Ava Hudson, Valera Hudson, Mrs. Johnnie Mixon, Mrs. Florence Morgan and Mrs. Ollie Gilbert, sister of Mrs. Morgan from Oklahoma City formed a party for a tour to the West Coast and Los Angeles.

They will return in about two weeks.

Camp for 4-H Club Boys Announced

Jones County 4-H Club boys will attend the Six County Camp to be held at Lake Cisco July 18 and 19, according to Bill Lehmborg, county agent. Other counties include, Callahan, Stephens, Eastland, Palo Pinto and Shackelford.

4-H Club meeting will be held July 11, 13, 14 and 15 to explain the camp, and arrange for transportation. Every club boy who has turned in a record book in 1950, or who is keeping one now will be eligible to attend.

The program includes swimming, pole pillow fights, horseshoes, washers, baseball, boxing and skating. W. R. Lace, Stephens County agent has been named general chairman of the camp.

Over 200 club boys and their dads are expected to attend the camp.

Jess Young Oil Well Plugged with No Show

Wheelock Drilling Company and others plugged the Jess Young well southeast of Hamlin as dry and abandoned after penetration to a depth of over 6500 feet to the Ellenburger level.

Prior to plugging of the well, an electrical survey was run of the hole to determine the characteristics of the well as drilled.

No further plans for exploration of that territory have been announced by the operators.

Scouts Report On Jamboree Trip

Hamlin Boy Scouts in attendance at the national jamboree at Valley Forge, Pennsylvania, have delegated Robert Bonner as reporter for the group and The Herald is in receipt of its first communication from Bonner.

Included in the group from Hamlin are W. L. Fletcher, Jr., Don Johnson, Joe Don Hymer, Robert Angel, Joe League, Guy Weaver and Robert Bonner.

Bonner reports that the party left Abilene at 12:30 p. m. on June 25 and supper was eaten in St. Louis on the evening of June 26. The party arrived for a tour m. on the evening of June 27th. Congressman Omar Burleson was on hand in Washington to greet the boys.

Bonner reports that the interesting sights visited by the boys included the Lincoln Memorial, the Tomb of the Unknown Soldier, and the nation's capitol building. The White House was closed for repair and was seen only from a distance.

On Wednesday, June 28, the Scouts arrived at Penn Station for their tour of New York City. They ate breakfast at the station and highlight was a visit to Yankee Stadium where they saw the Yankees and Washington Senators perform.

Saturday night at the Valley Forge Arena, President Truman addressed the Boy Scouts and an estimated crowd of 51,000 attended. Valley Forge will be the center of activities for this week. Niagara Falls will also be viewed.

Culbertson Well Sets Pipe in Strawn Pay

The Ungren & Frazier Joe Culbertson No. 3 well has completed its test of the Ellenburger and the well was plugged back for production from the Strawn pay.

Pipe was set on this well Tuesday night.

Work on the new football stadium is progressing with foundations and beams expected to be completed by the end of next week.

The steel is being fabricated at the Waco plant of the Central Texas Iron Works and will be delivered and erected by that company as soon as the foundation is ready.

The seating structure is to be 200 feet in length and will extend between the 17 yard lines on the west side of the playing field. The structure is to be 15 rows in height with the front row of seats to be approximately five feet above the level of the playing field.

The improvements at the field will represent an expenditure of around \$15,000. It is pointed out that no tax monies are being spent on the project and payments are expected to be met out of receipts from the use of the stadium over a period of five years.

A plan has been worked out by which five year options are to be sold on seats between the 38-yard lines. These options are to be sold for the sum of five dollars and will give the holder an option to purchase a ticket up to 4:00 p. m. on the day preceding the contest to a particular seat of his selection. The option will remain in force for a period of five years. These option certificates are now being printed and will be ready for sale by Monday, July 10.

Season ticket booklets are also being printed and will be ready for delivery to the option holders next week. Those who do not purchase options will have an opportunity to purchase reserved and season tickets about the first of August.

Want Your Mail?

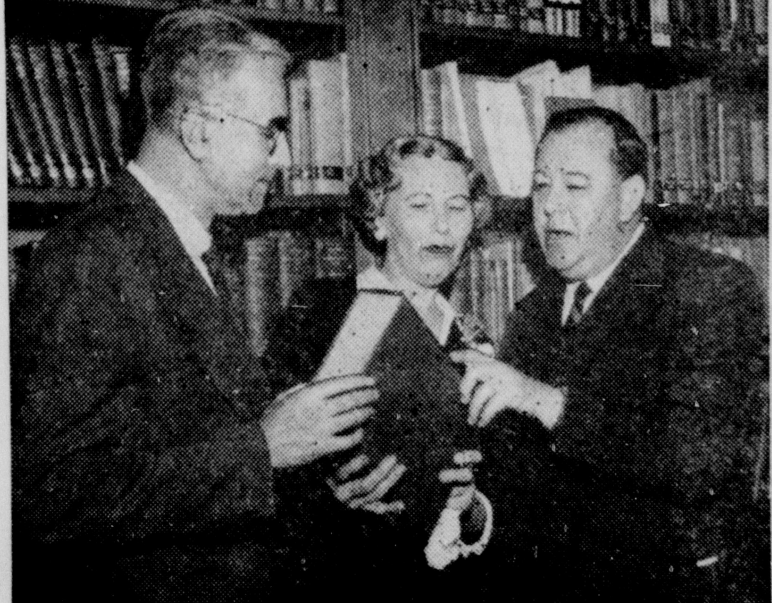

Mail delivery started on schedule for residents of Hamlin as well as the business section on July first.

Postmaster Perry Sparks reported to a representative of The Herald that very little congestion resulted from the new service and that deliveries are being made daily on schedule.

Particular emphasis is placed on the necessity for proper notification of address of citizens. Change of address cards may be obtained from the post office. After these cards have been properly filled out, subscribers will be removed from general delivery service or from boxholder service according to their desires.

Subscribers to The Herald are urged to notify The Herald if they desire residence delivery so that the necessary changes can be made in the mailing list of this publication.

Wilson Memorial Library Goes to U.N.

The Woodrow Wilson Foundation formally transferred to the United Nations its Woodrow Wilson Memorial Library of some 16,500 volumes, including what is considered by experts the most complete collection of League of Nations documents in the world. Here, U.N. Secretary-General Trygve Lie (right) looks at some of the books with Dr. Harry Gideonse, President of the Foundation, and Miss Harriet Van Wick, Librarian of the Woodrow Wilson Library.

Trusteeship Council Opens Session

Here, Dr. Victor Hoo, U.N. Assistant Secretary-General, talks with Roger Garreau of France, outgoing President of the Council.

Food Poisoning Has Safety Measures

Food poisoning and the spread of food-borne diseases can be "things of the past", State Health Officer George W. Cox asserted in a report to The Herald late this week.

"People need only remember three things to bring about the end of the food poisoning disease classification," Dr. Cox declared. "Buy food from safe sources, prepare it in a sanitary fashion, and serve and store it correctly."

He said state laws covered the sale of contaminated food to the housewife, but "only the housewife can see that food is properly stored and cleanly prepared for serving to the family."

There is a difference between food infection and food intoxication, he pointed out.

Food infection comes from eating or drinking a product contaminated by a germ. Dysentery, typhoid fever, para-typhoid fever and tuberculosis are examples. Animal parasites can also gain entry to the body in this way.

That, the doctor said, is how people get trichinosis and tapeworm. The growth and multiplication of certain toxin forming bacteria in unrefrigerated foods bring on food intoxication, according to the explanation. That is the source of staphylococcus infection and the deadly botulism. Some kinds of mushrooms and certain shellfish are also poisonous.

Some poisonous substances may be accidentally introduced into food, Dr. Cox said. "For instance, rodent insect poisons, spray residues on fruit and vegetables, and poisons from metal containers."

To point up the deadliness of some food poisons, he related the story of the housewife who suspected some home-canned green beans she had just opened were tainted.

"She barely tasted one of them, but it killed her in a matter of hours. Such instances are rare but do occur."

Snakes have as many as 300 pairs of ribs.

John T. Scopes was arrested and convicted for teaching Evolution at Dayton, Ohio.

Third More Deaths Caused in Hiway Crashes Over State

Traffic accidents in Texas are killing about one-third more people this year than were killed last year according to a report from Colonel Homer Garrison Jr., Director of the Texas Department of Public Safety.

"If this rate continues," Colonel Garrison said, "there will be 2,500 lives lost in traffic accidents during 1950 and that will be 540 more than were killed during the year 1949."

During the past 12 years the highest toll for the month of May was in 1947 when 160 were killed. A preliminary figure for May 1950 is 202 deaths and complete reports for that month will push the total to 225.

Speed is the number one killer, Garrison warned, in that it claims one out of every three traffic deaths. Somehow we must impress upon drivers that when they have an accident while driving at excessive speed the resulting impact is more than their bodies will stand.

In an effort to reduce this mass slaughter, the Highway Patrol Division has received instructions from Chief W. J. Elliott to curb speeding on Texas Rural Highways where traffic deaths have increased 24 per cent.

The first oil well in the United States was built in Titusville, Pennsylvania, in 1859.

A lighthouse sounds no drum, it beats no gong; yet far over the waters, its friendly light is seen by the mariner.—T. L. Cuyler.

Cancer Projects Get Appropriation

Twenty cancer control projects in Texas—tumor clinics, information centers and professional service groups—have just received appropriations totaling \$118,123.73 from funds raised in the Texas Cancer Crusade.

Budgets for the 20 projects have been approved by the Committee on Projects and Allocations of Funds of the American Cancer Society, Texas Division, and recipients of the funds are being notified this week by state headquarters of the Society in Houston.

"The Society's biggest test has been to figure out how to make the \$390,000 raised so far in the 1950 Texas Cancer Crusade line up with budget needs amounting to \$500,000," Dr. William F. Mengert of Dallas, Committee Chairman said. "One-fourth of all Cancer Society funds goes into research into causes and all possible cures of the disease. Money is constantly needed, too, for various services to cancer patients. Since early diagnosis is imperative for recovery from cancer, cancer education for the public and for doctors takes an increasing amount each year. All in all, our budget committees are hard pressed to make the necessary cuts."

"Members of this committee view it as a healthy sign of progress and future planning that requests outstrip available funds, but they're quick to admit that it's not easy to apply the pruning knife to so many projects vitally

needed to effectively control cancer in our state," Dr. Mengert concluded.

Senator G. C. Morris, candidate for Lt. Governor, visited last Friday in Hamlin.

A person normally has twelve pair of ribs.

Mrs. E. A. Preston of Hamlin was a medical patient last week in a Rotan hospital.

Prewit Motors To Train Mechanics

All mechanics of the Prewit Motor Company, Hamlin have enrolled in a new, special post-graduate course developed by Chrysler Corporation service engineers for teaching the latest advanced techniques in diagnosis and the repair of cars.

The course has been designed for the experienced mechanic and is not intended for the novice, Prewit explained. Average experience of Prewit mechanics, for instance is 15 years.

Plan of instruction is founded on teaching an understanding of engineering principles rather than mere rule of thumb guides, so that service diagnosis is made quicker, surer and easier for the mechanic, with resultant direct benefits to the customer in the form of savings in service expense, better workmanship and reliable service.

Framework of the course is built around a series of instruction kits, one of which is prepared and released from the factory service department monthly.

First item in the instruction kit is a 20 minute sound film outlining basic principles of an advanced automobile service operation, how to recognize the problem and how to make the necessary corrections. The operation is then lectured on and performed for the class by Clyde Riley; large "blowup" charts to aid in illustrating principles and techniques involved, are supplied. The sessions conclude with a period in which each mechanic performs the particular service operation himself and then writes answers for a questionnaire which is returned to the factory at Detroit for grading, and becomes a permanent part of his record. Finally, the mechanic is supplied a complete reference book on the subject, for his future use.

After completion of the first 12 consecutive subjects, including a series of tests, the mechanic will qualify for a certificate indicating that he has received the training. When he completes 24 consecutive subjects, he will be awarded an additional certificate which he can display, attesting to increased efficiency in automobile service methods. In addition, completion of 24 consecutive subjects will qualify the mechanic for recognition as a "Master Technician" when other requirements are fulfilled.

LAND PREPARATION

Today tractor and efficient modern implements do the job of preparing the soil for cotton planting in only a fraction of the time required by yesterday's man-mule combination. This heavy-duty disc harrow can cover approximately 25 acres in a day. An old-fashioned mule-drawn plow would cover approximately 3 acres in the same time.

State Health Council Launches Survey for Medical Needs and Facilities in Texas

Acting at a time when the state of health of all Texans will be most important, in the face of possible impending crisis, the Texas Health Council early this week announced that it is geared now to launch a statewide survey of medical needs and facilities.

This organization, first to announce plans for such a survey, has as its purpose to coordinate already existing efforts, and to assist in case of national emergency or any eventuality.

No time will be lost in conducting the statewide survey at local levels to accumulate pertinent statistics and information which may or may not be needed in the near future, according to Jerome K. Crossman, president of the council.

Regardless of the world situation, the results of the survey will be most beneficial in carrying on the program of the Texas Health Council, which is an independent, non-political, non-profit educational corporation made up of leaders in industry and business, and including the professions such as legal, medical, dental and medical service, united to improve and extension of health facilities throughout the state.

The survey will cover the following points:

1.—What is needed to furnish proper medical care.

- Doctors
- Nurses
- Hospitals
- Clinics

2.—What facilities are now available?

- Doctors
- Nurses
- Hospitals
- Clinics

3.—What organizations are now providing any assistance?

- Commissioners' courts
- County judges
- County welfare groups
- City councils
- City welfare groups
- Community Chest
- Other charities

4.—What groups could be counted on for cooperation?

5.—Whether individuals could be counted on to help?

Governor Allan Shivers has been invited to head the State Advisory Board of the Texas Health Council, as Honorary Chairman. This board will serve as specialists in drafting and directing policies an over-all program of the organization.

Membership on the State Advisory Board of the Texas Health Council will include representatives from such groups as the State Medical Association of Texas, the Texas State Dental Soc-

ety, State Hospital Association, Texas Graduate Nurses Association, State Department of Public Health, Texas Education Agency, Texas Pharmaceutical Association, Medical Service Society of Texas, Medical Technologists, Texas Public Health Association, Woman's Auxiliary to the Texas State Dental Society, Texas Hospital Auxiliaries, diabetes, heart, cancer, tuberculosis and rheumatism societies, Texas Federation of Women's Clubs, Texas Congress of Parents and Teachers, Texas Press Association, and Women's Auxiliary of the State Medical Association of Texas.

COTTON CONVERTIBLE

A dress and cape ensemble destined to fit into many settings. A Martini design, it's made of em-broidered cotton. The saw-tooth details enhance the sophisticated lines. When the cape is removed, a strapless sun or date dress is revealed. Hat by Mr. John.

Because right is right, to follow right were wisdom in the scorn of consequences.—Tennyson.

Griffin Announces In Court Race

A veteran of World War I and World War II, who was appointed to the Supreme Court by the late Governor Beauford Jester, is running for his first elective term to the state's highest judicial office. He is Judge Meade F. Griffin of Hale County.

Judge Griffin was born at Cottonwood in Callahan County on March 17, 1894. He moved to Tulsa in 1914.

Young Griffin worked his way through the University of Texas, obtaining a law degree in 1917. That same year he graduated from the First Officers' Training Camp in Leon Springs as a captain in the Infantry. He was assigned to Camp Travis where he served until October 1, 1918, after being promoted to a Major. From Camp Travis he went to Camp Sheridan at Montgomery, Alabama, serving there until his discharge on December 8, 1918.

Following World War I, at age 24, Griffin returned to Tulsa, served as county attorney of Swisher County, and was elected Mayor of the City in 1919.

In 1920, Judge Griffin moved to Plainview and practiced law with the firm of Kinder & Russell until 1923. He served two terms as county judge of Hale County from 1923 to 1926, and was district attorney for the 64th Judicial District from 1927 to 1934.

In 1935 Judge Griffin returned to private practice, with the firm of Griffin & Morehead, in Plainview. He was associated with that firm until his appointment as Associate Justice of the Supreme Court on April 1, 1949, except for the time spent in service in World War II.

The call to colors found Griffin back in uniform on July 27, 1942. He became a Lt. Col. in the Infantry, serving as Chief of the Training Division at Camp Shanks, New York. In May 1945, Griffin was detailed to the Judge Advocate General's Department. He helped establish the Trial Section of War Crimes Branch of the U. S. Army, and became Chief of the Prosecution Sub-section at Wiesbaden, Germany. He was discharged as Colonel of the Infantry on December 9, 1945 and holds a reserve commission in the Judge Advocate General's Department.

Judge Griffin served as a member of the board of directors of the Texas Bar Association from 1939 to 1942; was a member of the Advisory Hospital Council of the State of Texas from July 1947 to April 1949.

Griffin's life has been an active one which has earned for him the reputation of being a hard working lawyer with a broad field of experience. This accounts for his energetic campaign for election to place three on the Supreme Court of his native state.

Caesar, Alexander the Great, and the Iron Duke of Wellington were never defeated in battle.

Noah Webster began writing the dictionary in 1807 and finished in 1828.

Return
MEADE F. GRIFFIN
of Hale County

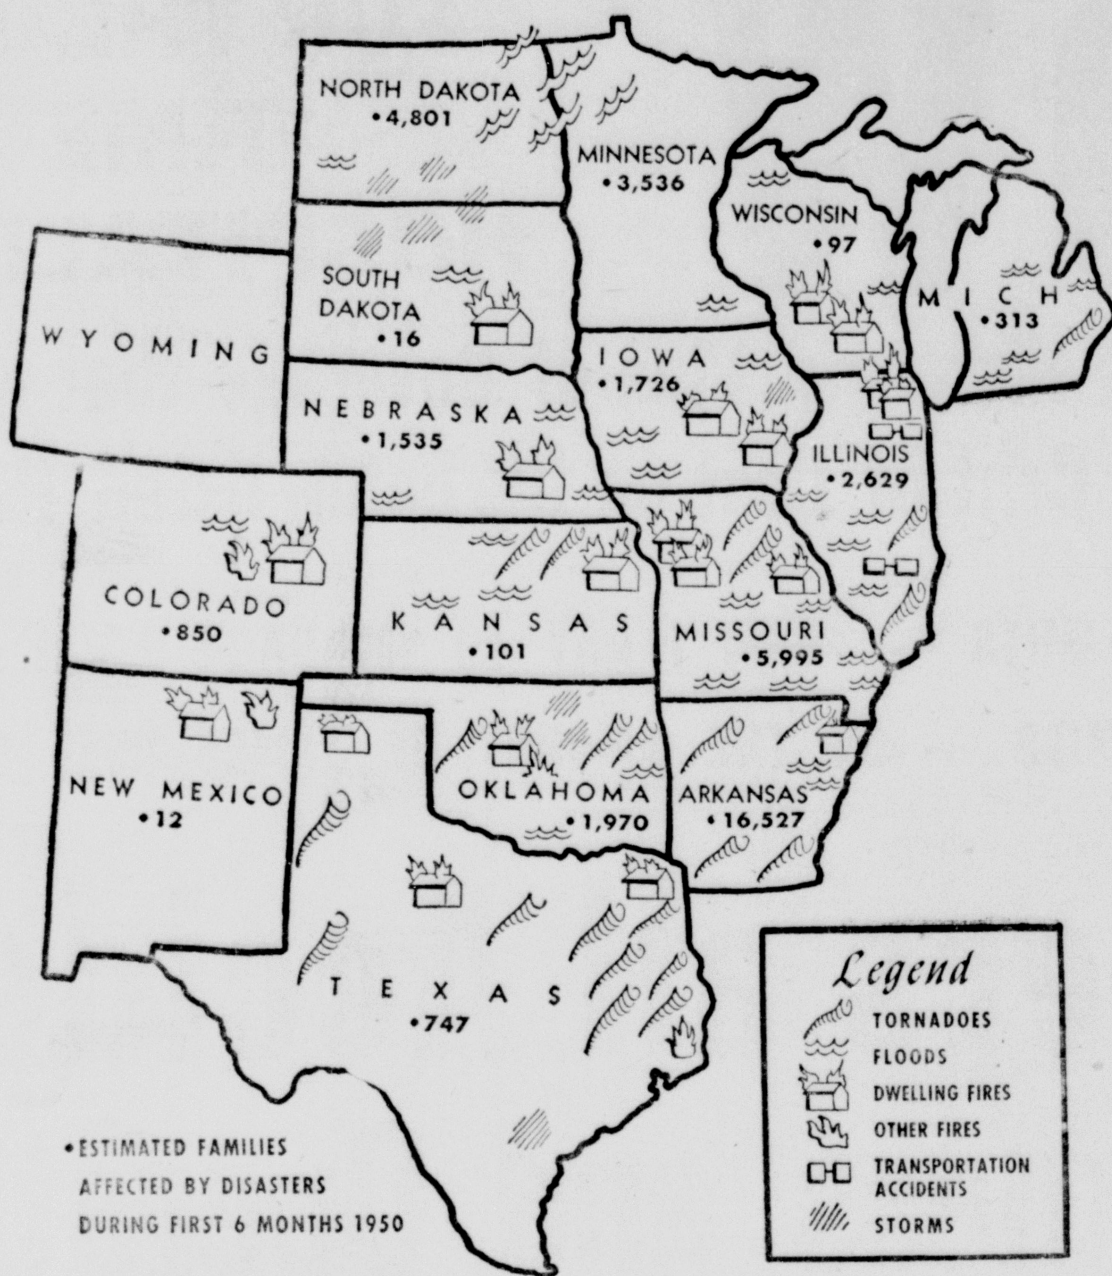

To First Elective Term
SUPREME COURT
PLACE 3

- A hard working lawyer of wide experience.
- Native of West Texas (born in Callahan County in 1894).
- Worked way through College. Graduated from University of Texas Law School and admitted to bar in 1917.
- Served in World War I and World War II. Chief Prosecution Section War Crimes, Wiesbaden, Germany, 1945.
- Engaged in general practice of law at Plainview from 1920 until appointed to Supreme Court by Governor Jester in 1949.
- County Judge of Hale County 1923-1926. District Attorney 64th Judicial District 1927-1934, retiring voluntarily.

Your Vote and Influence Will Be Appreciated

40,000 Families Affected By Disasters in 16 States, 6-Month Survey Shows—Floods, Tornadoes Cause Greatest Loss

Floods, tornadoes, storms, fires, and other disasters this year have struck an estimated 40,000 families in 16 of the 48 states comprising the American Red Cross Midwestern Area, shown by the above map. Red Cross officials in charge of aiding disaster victims in the area report a number of disaster operations continuing into the second half of 1950. Largest continuing operations are in the North Dakota-Western Minnesota flood area, where Red Cross has provided continuous assistance since the end of March, with operations complicated by recurring floods and blizzards.

Texas State Teachers Association Reports on Improvements in Standards

Texas' new school laws, in force one year, have had the desired effect of providing better education and of bringing more children into the classroom, according to a report made to The Herald from the Texas State Teachers Association.

Average enrollment skyrocketed more than 100,000. L. P. Sturgeon, state associate commissioner of education, said.

"A renewed interest among educators in getting children into the schools, plus more attractive programs offered the pupils have had the desired effect," Sturgeon said.

The spotlight of publicity thrown upon the schools while new education laws were being studied by the public and enacted by the last legislature has caused Texans to take more interest in their schools than ever before.

"An illustration of this is the fact that in some districts members of civic clubs have designated themselves as attendance officers. They have been extremely helpful to the school administrators in urging attendance so that Texas children can have a better education."

Every district in the state has waged intensive campaigns to get children in school and keep them there, Sturgeon said.

Schools have expanded or instituted classes in shop work to interest older children.

Classes for handicapped children have increased 50 per cent. They, like many other special school services, were made possible by allocation of state funds under Gilmer-Tiken school laws.

Visual aid facilities have been augmented, Sturgeon said, increasing the interest of children in school work.

School terms of six weeks or two months during the summer are popular in many sections of the state, according to Sturgeon. These make it possible for students to complete their annual scholastic work and yet allow schools to be dismissed during cotton picking time.

Sturgeon also reported that inroads are being made on the problem of regular attendance of Latin-American and Negro pupils. Itinerant workers are prone to leave their children in school only two or three months of the year.

at most, Sturgeon pointed out. Some districts which have heavy Latin-American and Negro populations reported gains in attendance of 15 per cent and more during the last school year as compared with less than five per cent state-wide gain.

But even with the increase in attendance, there are still approximately 150,000 children of school age in Texas who are not enrolled, Sturgeon said. These are children whose parents are starting them in school a year late or older children who do not enter high school.

One of the most serious problems confronting school districts is lack of classroom facilities, according to Charles H. Tennyson, executive secretary of the Texas State Teachers Association.

Surveys by that organization and state school officials show that 50 per cent of the school districts this year increased their classroom facilities. Many others will add classrooms during 1950 and 1951, Tennyson said.

"These necessary additional facilities will be made available due to increased revenue obtained by the schools through the new and equitable laws which produce more funds, from both state and local taxes," Tennyson said.

Business Failures Add To Eighteen for May

Texas business failures numbered 18 during May 1950 as compared with 17 in April and 14 in May 1949, according to reports from Dun & Bradstreet to The Herald through the University of Texas Bureau of Business Research.

Liabilities per failure averaged \$16,000 in May, \$24,000 in April, and \$20,000, in May 1949. Business failures in Texas from January through May 1950 totaled 95 as contrasted to 71 failures during the similar period of last year 27 in 1948, and 17 in the first five months of 1947.

Mr. and Mrs. T. W. (Mickey) McGuire have moved to Waco where he is employed by the Safeway store. They are visiting over the holidays with friends here.

French is the official diplomatic language of the world.

Cottonseed Received At Mills 114,611 Tons

Cottonseed received at Texas mills in April, totaled 114,611 tons, falling 10 per cent from March, according to reports to The Herald from the University of Texas Bureau of Business Research.

Cottonseed received at Texas mills in April was 20 times greater than the April level a year ago.

Cottonseed crushings slipped 15 per cent in April from March, but rose 24 per cent from April 1949.

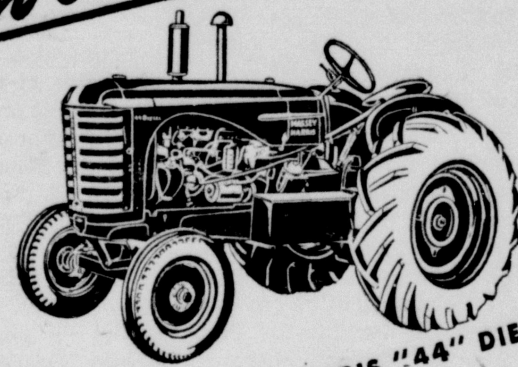

W. A. Stephenson, dean at Hardin-Simmons University of Abilene, visited his mother, Mrs. Etta Stephenson, Saturday.

Mrs. J. A. Wilhite and children of Harlingen are visiting this week with Mrs. L. S. Magee and other relatives.

More salt is present in the Atlantic than in the Pacific Ocean.

After adjustment for seasonal variation, the Bureau's index of cottonseed crushings stepped up 64 per cent from March to 313 per cent of the prewar (1935-1939) base period in April.

Here's DIESEL ECONOMY with CUSHIONED POWER

THE NEW MASSEY-HARRIS "44" DIESEL

● A different kind of Diesel farm power, the Massey-Harris 4-cylinder "44" Diesel brings new efficiency... new economy... new pulling power... new money-saving field performance to the Diesel farmer. It's the result of an amazingly simple engine design. A special firing chamber—called a Dyna-Cell—creates a cyclonic rotary turbulence of the burning fuel on every power stroke. Burning fuel swirls the full-length of the stroke exerting equal pressure on the piston during its travel. Fuel burns slower, smoother... delivers a pushing force. It's cushioned power. Dependable power. Greater lugging power because there's full power on every stroke of every piston.

See us soon for complete information... be sure to ask about Cushioned Power and Dyna-Cell design.

Shivers Favors Old Age Aid Increase

Forthright answers to four questions put to him in a letter from a West Texan this week placed Governor Allan Shivers clearly on record for a "fair and equitable" old-age assistance system in Texas.

Replying to a communication from Archie Yates, 1318 North 15th Street, Abilene, Shivers set forth in one-two-three fashion his views on old-age assistance. He wrote Yates as follows:

"Your first question is, 'Do you favor the removal of the ceiling on old-age pensions and payments to needy children and dependent blind?' My answer is yes.

"Your second question is, 'Will you or will you not do all you can to have a constitutional amendment submitted to the people to be voted on at the earliest possible time?' My answer is, I will.

"Your third question is, 'Will you or will you not, if ceiling is removed, support a law raising such payments?' My answer is: This is a matter entirely for the Legislature, but I will be happy to see the Legislature pass such laws as it feels fair and just in all the circumstances.

"Your fourth question is, 'Do you or do you not favor the State taking a lien on whatever property the old folks may have?' My answer is, I do not."

In his letter to Yates, Governor Shivers pointed out that, as a member of the State Senate in 1935 he wrote and sponsored the first old-age pension law that Texas had. Shivers also was a co-author of the 1941 tax bill which to this day provides revenue for the old-age assistance program.

"As a public official," he said, "I have always endeavored to work for a fair and equitable old-age assistance program in Texas."

Gamile Hassen Cast In Texas U. Play Role

Gamile Hassen of Hamlin has been cast as Mrs. Watty, a cockney housekeeper, in "The Corn is Green," Department of Drama production at the University of Texas, Austin.

Miss Hassen, who is majoring in drama, is a member of the Curtain Club, a student dramatic organization.

She is the daughter of Mrs. B. Hassen.

Game Commission Plans Big Program

Vital phases of the fall hunting season will occupy the attention of the Game, Fish & Oyster Commission at its July meeting in Austin Friday a report to The Herald stated.

Subjects to be considered include:

Setting up a season on antelope in West Texas.

Prescribing hunting and fishing regulations in the new regulatory area in the Panhandle.

Establishing boat quotas and license fees for the Gulf Coast fishing industry.

Setting seasons and dates for mule deer and quail in the regulatory area West of the Pecos.

Dates and other provisions of the general big game season in the remainder of the state are set by law.

The dove and migratory waterfowl season dates, shooting hours and bag limits are set jointly by Federal authorities and the state.

The Commission, at its last meeting, adopted a resolution recommending that the Federal authorities place Texas in two

zones for the coming water fowl season. Under this plan, the Panhandle region which is framed by Oklahoma and New Mexico would have an earlier season in the adjacent states.

The Commission recommended as a companion plan that the state at large have a straight shooting season for migratory waterfowl beginning not earlier than November 10, instead of the split season authorized last year. The Commission also recommended a limit of eight ducks per day and eight in possession. They were four and eight in 1949.

Beethoven wrote some of his greatest music after becoming deaf.

The God who gave us life, gave us liberty at the same time.—Thomas Jefferson.

Morris Files For Lieut. Governor

Senator G. C. Morris of Hunt County this week is announcing his candidacy for Lieutenant Governor.

He was elected to the State Legislature at the age of 22 and in 16 years they reelected him three times to the House of Representatives and twice to the Texas Senate.

He has served with distinction: eight years as a State Representative, eight years as a Senator, Acting Lieutenant Governor of Texas, President of the Senate, Chairman of Texas Legislative Council, Chairman of Legislative Budget Board.

His record is one of performance, not political promises.

He's a licensed attorney, who studied at night to pass the Bar and hails from Greenville.

He said, "The next two years will be most crucial time for Texans. Problems of State Government of tremendous magnitude must be solved by those who serve in the legislative branch of your Government. There will be no more important office than that of Lieutenant Governor. The man whom you shall choose for this office will preside over the Texas Senate, appoint all standing and conference committees. Realizing the importance of the office of Lt. Governor and the problems that will face the Legislature when it convenes in January 1951,

Ex-Bell County Folks Announce Reunion

Annual get-together for the Ex-Bell County residents who now reside in West Texas will be held at the Presbyterian Camp Ground at Buffalo Gap Sunday, July 16 according to a report received by The Herald this week.

The annual fete is to bring together all former residents of Bell County who now reside in West Texas. There are no dues for membership.

Program will begin at 10:00 a. m. with a basket lunch spread at noon. All are asked to attend.

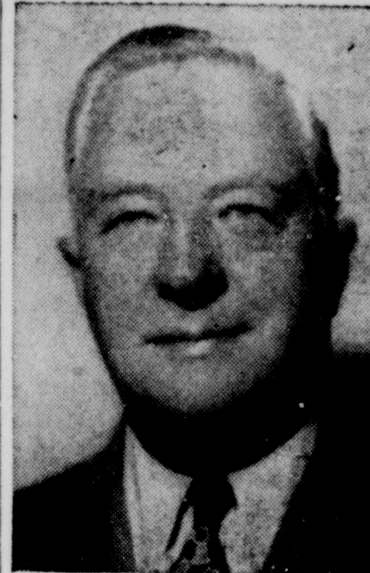

Mr. and Mrs. C. W. Garrett and Mrs. W. H. Garrett of Bethany, Oklahoma are visiting in the homes of Mr. and Mrs. Clarence Garrett and Mr. and Mrs. Tom Bingham. The C. W. Garretts were former residents of Hamlin and teachers several years ago at Tuxedo.

One hundred and twenty men accompanied Columbus when he discovered America.

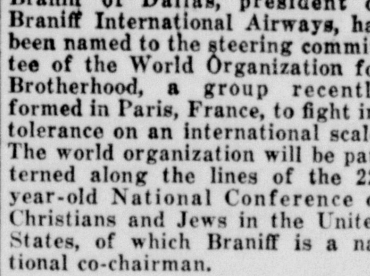

I am submitting to the people of this state my candidacy. I want to be your Lt. Governor solely upon the record I have made as a member of both Houses of the Legislature for the past 16 years.

"I invite every citizen of Texas to investigate my qualifications for the all-important office."

Senator Morris is married and father of two children, a boy, 6, and a girl, 1 year.

BROTHERHOOD LEADER—T. E. Braniff of Dallas, president of Braniff International Airways, has been named to the steering committee of the World Organization for Brotherhood, a group recently formed in Paris, France, to fight intolerance on an international scale. The world organization will be patterned along the lines of the 22-year-old National Conference of Christians and Jews in the United States, of which Braniff is a national co-chairman.

MEALTIME MARVELS

BEEF CASSEROLE
One-dish meals are a joy to the housewife. They save time and trouble in preparation and make a delicious light job. Here is a recipe for a splendid meal-in-one dish that contains a wealth of good values.

Beef Casserole
1 cup sliced onion
1 cup peas
1 tablespoon sugar
1/2 cup tomato juice
1/2 cup Worcestershire sauce
1/2 cup carrots (about)
mashed potatoes
Pan fry the bacon or salt pork. Season flour with salt and pepper. Dredge the cubed meat. Brown the meat on all sides in the pork or bacon fat. Add sliced onions, sugar, onion juice, and Worcestershire sauce. Cook about five minutes. Add tomato juice. Cover and steam until almost tender. Add carrots and peas. Cook until meat and vegetables are tender. Place in casserole. Top with well-seasoned mashed potatoes. Brown lightly in hot oven or under broiler unit. Serve hot. (Lamb or veal may be used in place of beef.)

For other tempting, nutritious food ideas, send today for your free copy of "Mealtime Marvels with Margarine," a helpful, 32-page recipe booklet in two colors. Write National Cotton Council, Box 76 Memphis, Tenn.

DRAW, PODNER!

The wild West has moved east, north, and south these days, for cowboy suits are favorites with small fry everywhere. This rootin', buckin' cowboy is all dressed up in a pair of cotton whipcord breeches, a cotton T-shirt and boots adorned with Roy Rogers and his trusty horse Trigger. To top it off, he sports a genuine ten gallon hat.

Mr. and Mrs. Donald King and Anne of Olton and Mrs. Ellis Barker of Portales, New Mexico were visitors of Mr. and Mrs. Gene Scott Saturday.

Mr. and Mrs. Gene Scott and Melba Jean, Mr. and Mrs. Buck Scott and D. B. Scott attended the funeral of George Ward at Jal, New Mexico last Thursday.

First of the Fine Cars in Value

The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—

Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

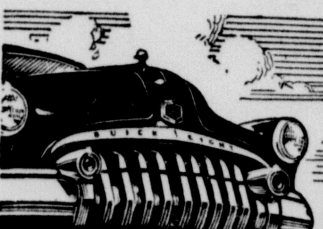

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine. Dynaflo Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

New Compound Is
Malaria Controller

A new compound which may find extensive use in combating malaria has been discovered by the chemistry department of North Texas State College at Denton.

According to Dr. Price Truitt of the NTSC chemistry department, the compound, derivative of pyridine, is obtained from coal tar. Details of the discovery are being kept secret. Dr. Truitt has explained, until a further and more complete testing period is finished.

Samples of the compound are now being tested by Parke-Davis Pharmaceutical Company of Detroit, Michigan.

Preliminary tests indicate that the drug shows some activity against malaria, and that it has low toxicity. "Although the drug probably will not replace quinine," Dr. Truitt explained, "it may be used as a supplement. It could well be used for those persons who are allergic to quinine," he added.

Red cedar wood is used most commonly in making lead pencils.

Horace Mann is the father of the American public school system.

At least 10 countries use the eagle as the symbol of supremacy.

Ben Ramsey Seeks
Lt. Governorship

Ben Ramsey, candidate for lieutenant governor and former Secretary of State, last week completed another chapter in his person-to-person handshaking tour of the state.

Ramsey found considerable interest in his program for economy in government, blacktop roads to every farm home, soil and water conservation and rural telephones at reasonable rates.

Ramsey, a 46 year old country lawyer from San Augustine in East Texas, has been conducting soil and water conservation experiments on his own farm near San Augustine. Several classes of students studying conservation have visited the farm to observe the results of the experiments.

Ramsey is campaigning for the office of lieutenant governor, the presiding officer of the state Senate, on the basis of his experience.

Ramsey served in both the House and Senate before he became Secretary of State, a position he resigned in February in anticipation of making the race for lieutenant governor. He was elected to the House in 1931, the same year he received his license to practice law. He served two terms and was then elected to the Senate in 1941. In 1947 he was elected president pro tem (assistant presiding officer) by his fellow senators, in recognition of his leadership. Ramsey retired from the Senate in 1947 and in 1949 he was appointed Secretary of State by the late Governor Beauford Jester. Ramsey continued to serve as Secretary of State under Governor Allan Shivers, resigning in February.

Saturday Rites For Mr. & Mrs. Abbott

Funeral services were conducted Saturday at Abilene for Mr. and Mrs. Jack Abbott who were killed in an automobile accident near Santa Fe, New Mexico, their home.

Burial was in the Bethel Cemetery near Anson under direction of Elliott's Funeral Home.

Bodies were found Wednesday of last week, but no details were available.

Both had been married twice, and both former wife and husband survive.

Mr. Abbott is also survived by his mother, Mrs. Minnie Abbott, 617 Chestnut Street, Abilene; two brothers, Bruce of Abilene and W. C. of San Angelo; two sisters, Mrs. Edith Ambers of Hot Springs, Arkansas and Mrs. Clarence Permenter of Paris; one daughter by his first marriage, Bertha Mae of Abilene.

Survivors of Mrs. Abbott are four sons by her first marriage, Aubrey, Bobby, Gary and Jerry Wallace, all of Abilene; one daughter by her first marriage, Joyce Wallace of Abilene; a brother, G. W. Eoff of Anson; and a sister, Mrs. Jess Johnson of Hamlin.

Poison Bait Station Schedules Three Week Days Open

Due to the increased demand for grasshopper poison bait the mixing station will be open Monday, Wednesday and Friday of each week. The station is located at the Farmers Co-Op Gin in Anson.

Spot checks for cotton insects made in the county reveal thrips, aphids, flea hoppers and some boll weevils are working. Some web worm damage has been reported.

Now is the time to make daily checks in your cotton fields and be prepared to fight those enemies, says Bill Lehman, County Agent of Jones County.

As a dust, 20 per cent Toxaphene and 40 per cent sulphur or 3-5-40 mix at 10 pounds per acre will give good control. As a spray three-fourths to one and one-half pound of Toxaphene or 2-1 mix will give good control.

ON VACATION TRIP

Mr. and Mrs. Ted Russell and son, Jack are on a vacation trip to Lyons, Colorado.

They were accompanied by Mrs. R. P. Stallings, mother of Mrs. Russell and a sister, Mrs. R. J. Mathis, both from Detroit, Texas.

Mr. and Mrs. Don Hymer and Mr. and Mrs. Joe Dillingham were Fourth of July visitors in the home of Mr. and Mrs. Dee Burton in Colorado City.

Pierce Brooks Up For Lt. Gov. Choice

Pierce Brooks, Dallas business man, has opened his campaign for Lieutenant Governor with a declaration that he is opposed to any new taxes until the State's financial affairs are put on a sound and sensible business basis and waste and extravagance are eliminated from the operations of the State government.

Brooks declared in his opening campaign address that the State is facing the worst financial crisis in its history.

"It is over-spending its prospective income at the rate of \$6,000,000 per month," he said, "and reports from Austin say that in addition to the \$500,000,000 the State is spending this year an additional \$150,000,000 in new tax money will be needed next year."

The Dallas business man candidate pointed out that the cost of the State government has increased more than 500 per cent since 1935, while the cost of the Federal government, aside from the cost of World War II, did not increase that much.

"I believe," Brooks said, "that through the elimination of waste and extravagance, by spending the tax dollar more wisely and by getting a full dollar's value for every dollar spent, the \$500,000,000 the State is spending this year can buy all needed supplies and equipment, pay adequate salaries to all essential employees, take care of the old folks, and provide all essential services without any new taxes."

Brooks said the big problem facing the State is not political but a business problem and he said it must be attacked from a business viewpoint.

"If it were a political problem," Brooks declared, "then seven of my opponents in this campaign for Lt. Governor should have been able to do something about it. They were members of either the House or Senate during the period when the cost of State government increased more than 500 per cent and they didn't or couldn't do anything about it. They stood idly by and allowed the cost of government to double, treble and then reach runaway proportions. What can the people expect them to do about eliminating waste and extravagance and about getting a full dollar's value for every dollar spent?"

Brooks said that only by the election of a business man to the Lt. Governorship can the people of Texas be assured of a direct and vigorous attack on the run-

away cost of government, "and that man," Brooks continued "must be completely free from entangling alliances, political obligations, cliques, clans and the groups which grow up when men stay in office too long."

Turning to old age pensions Brooks said:

"I want to find out why the State is short-changing the old folks, cutting old age pension checks while thousands of state owned automobiles are burning up half a million dollars worth of gasoline, oil and tires on vacation trips, hunting and fishing trips, and shopping tours."

Brooks said he has no doubts as to the outcome of his campaign. "I am a business man," he said, "and not a professional office holder. I am the only major candidate who, as Lt. Governor, will be absolutely free and unhampered by previous associations, commitments, agreements and alliances to tackle the acute business problems now facing the State."

Brooks has served as president of the Texas Safety Council since it was organized in 1933. He is now serving his second term as chairman of the Board of Stewards of the Tyler Street Methodist Church in Oak Cliff. He has devoted much time to civic affairs. He once went 12 years without missing Sunday School. Under his lay leadership the Tyler Street Methodist Church has just completed an extensive building program.

It's Time for BROOKS!

New, All-Time Record! Users Now Buying 1530 CHEVROLET TRUCKS A DAY!

We and all other Chevrolet Dealers have delivered 40,001 Chevrolet trucks—an average of 1530 a day—in a single month! That's an all-time, all-industry record that no other truck even approaches. That's the best possible "buy-sign" sign for you. It tells you that Chevrolet trucks are first in user preference because they're first in value. It tells you that Chevrolet trucks are the proved leaders on all kinds of roads for all kinds of loads. It tells you that Chevrolet trucks will haul your goods more miles at less cost per mile. Come in and get all the money-saving facts!

*Based on official dealer-reported sales during the last full month for which figures are available.
